

Section 6

Transportation Appendix

This section is the "what do we do now?" transportation guide.

Use it whenever you are moving between places and do not want to figure it out from scratch.

General Transportation Rules

Rule 1

For airports, leave earlier than feels necessary.

The extra buffer is better than stress.

Summer traffic and full buses are normal.

If a bus is full, wait for the next one.

Rule 3

For short stressful connections, use Bolt, taxi, or private transfer.
